Pop'Em - Can you pop'em all? - Satisfyingly addicting iPhone Game.

- <https://apps.apple.com/us/app/popem-can-you-popem-all/id6461691305>

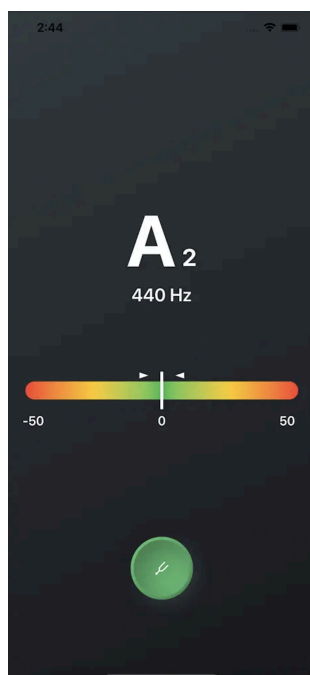

Netflix - clone

- <https://github.com/GlennBrann/Netflix-Clone>

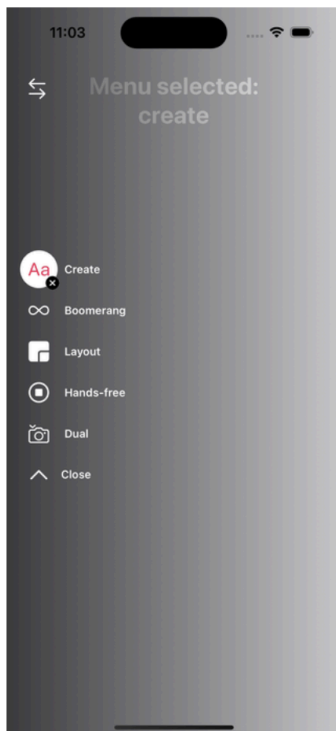

Simple Tuner - Guitar Tuner

- <https://apps.apple.com/cy/app/simple-tuner-guitar-tuner/id6444131285>

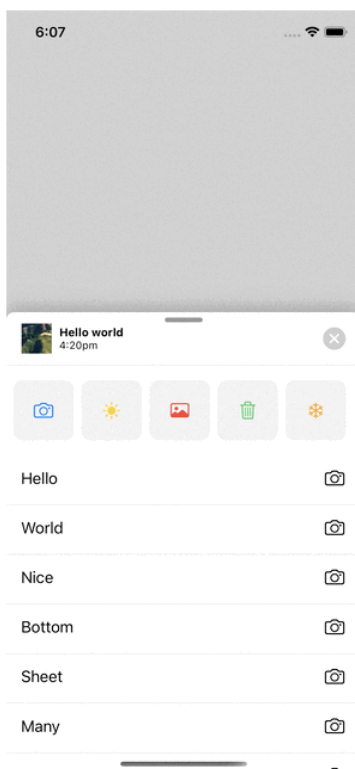

SideMenu - A SwiftUI Side Menu Control (inspired by Instagram Stories Camera)

- <https://github.com/GlennBrann/SideMenu>

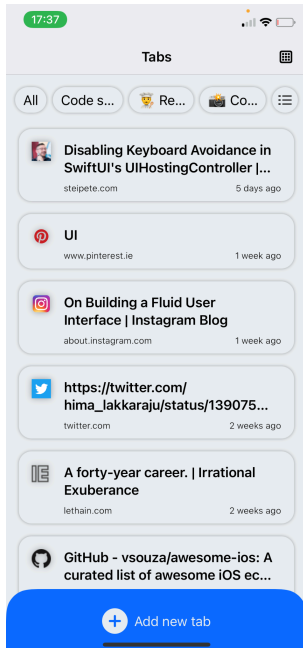

ManySheets - A list of custom SwiftUI bottom sheet components

- <https://github.com/glennbrann/manysheets>

LaterTab (never released)

- LaterTab is an iOS and MacOS application which you can use to store links you find from any platform using a ShareExtension.

LED Group ROBUS - Humanitas App (IOS/Android)

- The Humanitas is part of the new Human Centric Lighting products at ROBUS and I designed/developed the ios and android apps for this product which connected to lights via bluetooth. I was also Co-Author of a research paper on HCL for the LED professional Symposium 2019

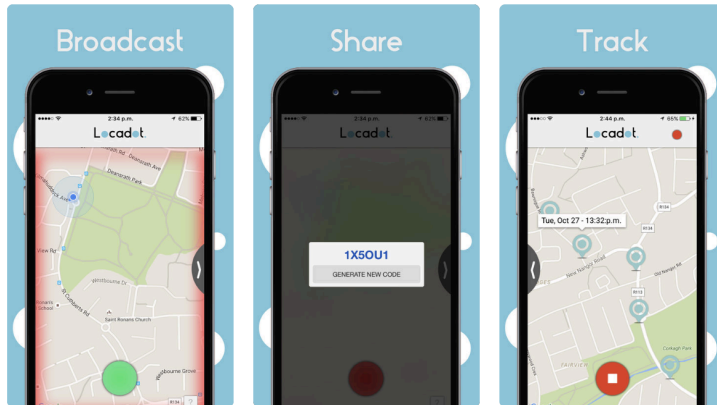

- Locadot keeps you connected to trusted friends and family, so they can keep an eye out for you. You decide when you want to be visible, and who can see you. It's as simple as that.

iPhone Screenshots

Knowsie - IOS

- Life is about asking questions, so why not be knowsie and ask one wherever you are!

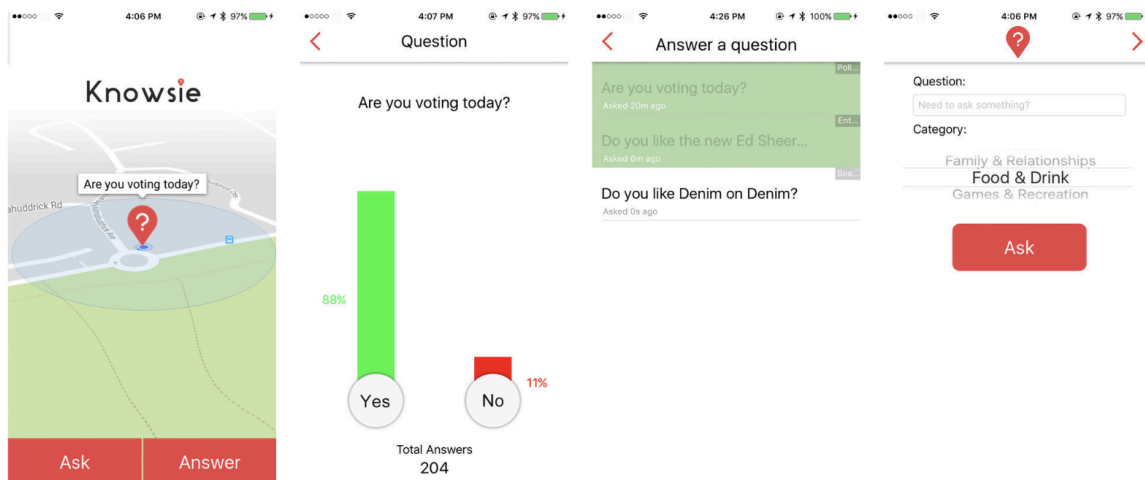

Knowsie 4+

Be knowsie and ask questions.
